Test Plan – nopCommerce Website

Project Name: Demo Site Testing

Project URL: https://demo.nopcommerce.com/

Prepared By: Anza A.N

Date: 16-03-2026

CONTENTS

1. INTRODUCTION 1

2. TEST OBJECTIVES 1

3. SCOPE OF TESTING 1

4. TYPES OF TESTING 2

5. TEST ENVIRONMENT 2

6. ENTRY CRITERIA 3

7. EXIT CRITERIA 3

8. TEST DELIVERABLES 3

9. ROLES AND RESPONSIBILITIES 3

10. SUMMARY 3

1. Introduction

The purpose of this test plan is to validate the functionality, usability, performance, and reliability of the nopCommerce website. It ensures that all customer-facing and admin-facing features work as expected across different devices and browsers.

2. Test Objectives

- Verify that all modules (Homepage, Search, Registration/Login, Product Catalog, Cart, Wishlist, Checkout, Order Management, Footer) function correctly.
- Ensure smooth user experience for customers.
- Validate admin functionalities for managing products, orders, and customers.
- Identify and resolve defects before deployment.

3. Scope of Testing

3.1 Features to be Tested:

- Verify with valid credentials
- Verify Email/Password format
- Logout
- Product List View
- Product Details View
- Product filtering
- Adding and removing the product from cart
- Quantity verification
- Dispatch address mapping
- Offer code application
- Payment selection.
- Gateway redirection
- Amount consistency
- Final deduction.
- Order cancellation
- Order refund

3.2 Features Not be Tested:

- Payment Gateway Real Transactions
- Third-Party Integrations
- Newsletter Module

4. TYPES OF TESTING

- Types of Testing to be Performed
- Manual Testing
- Black Box Testing
- System Testing
- Smoke Testing (basic feature verification)
- Usability Testing (basic UI/navigation checking)

4.1 Types of Testing not be Performed

- Automation Testing
- White Box Testing
- Performance Testing (Load/Stress Testing)
- Security Testing
- Database Testing
- API Testing

5. TEST ENVIRONMENT

Application: nopCommerce Demo Store

URL: https://demo.nopcommerce.com/

Browser: Microsoft Edge

OS: Windows

6. Entry Criteria

- Test environment set up with nopCommerce demo site.
- Test data prepared (sample products, users, orders).
- The tester has a clear understanding of requirements.
- Test cases are documented and approved.

7. Exit Criteria

- All planned test cases executed.
- No critical/high severity defects remain open.
- Test summary report prepared and approved.

8. Test Deliverables

- Test plan document
- Test cases & test scripts
- Test execution report
- Defect log with severity & status
- Test summary report

9. Roles and Responsibilities

Test Lead: Prepares test strategy, assigns tasks, responsible for reviewing test plan.

Test Engineers: Design and execute test cases, log defects.

Developers: Fix reported defects.

10. Summary

This test plan ensures comprehensive coverage of nopCommerce website features. By validating customer-facing and admin-facing modules, the plan guarantees a reliable, secure, and user-friendly e-commerce experience. Successful execution will confirm readiness for deployment and minimize risks of defects in production.
